Portfolio: <https://Dizzytree.io>

Profile

Professional PHP Developer with over 6 years of Laravel PHP framework experience. I have over 19 years of practical experience working in software and web development.

Technical technology stack includes:

Laravel, VueJS (Javascript), Ruby (on Rails), Tailwind/Sass (CSS), Git (Github), Mysql, HTML and Webpack.

Development Experience

Senior Developer - Bright Oak (US Remote)

June 2018 - Present

- Maintaining new features and bug fixes for a legacy PHP multi-tenant application.
- Develop and maintain WordPress web pages.

Senior PHP Developer - Pilaster Digital (US Remote)

March 2016 - April 2018

- Responsible as project lead for the development of 2 enterprise level SaaS applications.
- Developed both the backend API (Laravel/Mysql) and frontend VueJS components for a commodities management application that provided dashboard visualizations, detailed reporting, manage sales and track vessel and railcar transportation logistics from South East Asia into the continental United States.
- Designed and developed the API for a multi-tenant sales SPA called *DigitalAccess™*.
- Integrated the internal API with 3rd party API's such as Dropbox and Box integration.
- Developed GraphQL API for external frontend VueJS components

Developer / Designer - Sportix.io

June 2016

- Lead developer for sports payment SaaS app that manages payments for the amateur sports industry.
- Developed the backend infrastructure that integrates with the Stripe API
- Developed the frontend using TailwindCSS and VueJS components

Developer / Analyst - Batchewana Learning Centre

June 2012 - February 2016

- Developed an internal Laravel (Mysql) student records system for aboriginal band students.
- Developed custom reports using Compass For Success - Cognos Data Warehouse.
- Developed an internal system to allow administrators to push student record information to Aboriginal Affairs and Northern Development Canada.
- Trained staff and created modules on how to use the student records system.
